FOR IMMEDIATE RELEASE

Train Collision 2025-58370

Schertz, TX (11/2/2025) – On November 2, 2025, at approximately 10:12 A.M., the Schertz Police Department was notified of a collision between a train and an 18-wheeler transporting cars at the intersection of Schertz Parkway and FM 78. Upon arrival, emergency personnel discovered that the car hauler had been stopped on the south side of the tracks when it was struck by a westbound train. Fortunately, no injuries were reported, and the train did not derail.

The intersections of Schertz Parkway and FM 3009 will remain closed for approximately 5 to 6 hours. However, all other intersections along FM 78 will remain open. This incident is currently under investigation, and we are working in collaboration with Union Pacific and various state and federal agencies.

It is crucial to obey warning signs and signals at railroad crossings. These signs are in place to protect drivers by providing essential warnings of approaching trains. Ignoring them can lead to serious, even fatal, consequences. Always remember to stop, look, and listen. Trains cannot stop quickly, but you can. If you find yourself stuck on the tracks, leave your vehicle immediately and call 9-1-1.
